CRIME INDEX/CRIME RATE DATA

CRIME INDEX/CRIME RATE DATA

Caution should be exercised when reviewing and using these data. The many social factors related to crime and a community's residential population — used to calculate the crime rate — must be considered when making statistical comparisons. A community may have a small residential population but a large moving population because of a substantial number of manufacturers, motels, etc., within its jurisdiction. The large moving population attracts criminal behavior that occurs within the small jurisdiction and must be reported by the law enforcement agency. The crime rate calculation does not compensate for a moving population. The statistics can make it appear that crimes are committed by community residents when this is not necessarily true.

The Crime Index/Crime Rate Comparison Report is in alphabetical order by county. To determine in which county a particular agency may be located, refer to the Law Enforcement Employees Report in Section VI.

BUREAU OF THE CENSUS

STANDARD METROPOLITAN STATISTICAL AREAS

A Standard Metropolitan Statistical Area (SMSA) includes a city of more than 50,000 and the county in which the city is located, plus other cities which exhibit strong ties with the city. The county sheriff's office is also included for crime reporting purposes.* Two of the SMSAs overlap with Iowa and Missouri. Areas outside of Illinois that are included in an SMSA are not represented in the statistics presented here. In some cases, the percentages may not equal 100 due to rounding.

SMSA Summary

The estimated population of core cities and suburban areas — the two regions that comprise the SMSAs — accounts for 81.0 percent of the state population. The total SMSA index crimes account for 91.4 percent of the Illinois Crime Index.

SMSA Core Summary

A core city is within an SMSA and has a population of 50,000 or more inhabitants. The "twin central cities" of certain SMSAs have combined populations of 50,000 or more inhabitants and are considered together as a core city.*

The inhabitants of core cities represent 40.6 percent of the state's population and 50.1 percent of the SMSAs' population. Core cities account for 62.4 percent of the Illinois index crimes and 68.3 percent of the total SMSA index crimes.

SMSA Suburban Summary

A suburban area consists of cities and towns with 50,000 or less population, including the counties which are within the SMSA. The county sheriff's office is included in the suburban area.*

Suburban areas lie outside core cities and are bounded by the SMSA lines. The inhabitants of suburban areas represent 40.4 percent of the state's population and 49.9 percent of the SMSAs' population. Suburban areas account for 29.0 percent of the Illinois index crimes and 31.8 percent of the total SMSA index crimes.

LAW ENFORCEMENT OFFICERS KILLED

During 1987, two Illinois law enforcement officers were killed by felonious act and one by accident. A brief narrative on the circumstances surrounding each death is presented below:

September

Chicago Police Department — On September 4, 1987, at approximately 8:19 p.m., while working a special employment detail, four officers were injured and one officer was killed in a motor vehicle accident. The officers were in a marked police vehicle and were enroute to an assignment when their vehicle was struck by another vehicle at the intersection of Fifteenth Street and Ashland. The driver of the other vehicle was injured and was issued a summons.

October

Peoria County Sheriff's Office — While attempting to serve a warrant for a housing code violation, a deputy with nineteen years of law enforcement experience was shot and killed as he stood in the doorway of the residence. The weapon used was a .38-caliber handgun. The suspect then fatally stabbed his wife who attempted to flee the residence. The 66-year-old male suspect then barricaded himself in the residence. In the exchange of gunfire that followed, another officer was wounded and the suspect was killed.

December

Chicago Police Department — A 43-year-old officer was shot and killed on December 30, 1987 while responding to a domestic disturbance call. Upon arriving at the scene, the officer and his partner requested a back-up unit and entered the apartment where they were confronted by the suspect. A struggle ensued and the suspect gained control of the victim's .357-caliber revolver. The suspect shot the victim and then fired at arriving officers. Back-up officers shot and killed the 34-year-old suspect. The officer had sixteen years of law enforcement experience.

LAW ENFORCEMENT EMPLOYMENT INFORMATION

The employment rate for law enforcement personnel is calculated as follows:

$$\frac{\text{number of employees} \times 1{,}000}{\text{jurisdictional population}} = \text{employment rate}$$

Example:

A department with 60 employees in a population of 51,000 has an employment rate of 1.2 per 1,000 inhabitants.

$$\frac{60 \times 1{,}000}{51{,}000} = 1.2 \text{ per } 1{,}000 \text{ inhabitants}$$

Law enforcement employment rates should not be correlated with index crimes; non-index offenses and the many services performed by the typical law enforcement officer amount to over 80 percent of the officer's workload, the details of which usually remain unpublished. Each community should consider all the factors related to the causes of crime and determine the role of the law enforcement department relative to crime and to required services.

The 25,169 part- and full-time sworn officers in 1987 account for 84.2 percent of the police department work force. The 1987 employment rate for sworn employees of police departments is 2.7 per 1,000 inhabitants. The 4,731 civilian employees comprise 15.8 percent of the police department work force, with an employment rate of .5 per 1,000 inhabitants.

The 3,320 part- and full-time sworn officers in 1987 account for 73.4 percent of the sheriffs' offices work force. The 1987 employment rate for sworn employees of sheriffs' office is 1.6 per 1,000 inhabitants. The 1,202 civilian employees comprise 26.6 percent of the sheriffs' offices work force, with an employment rate of .6 per 1,000 inhabitants.

PREFACE

Crime in Illinois, 1988 marks the seventeenth year that the Illinois State Police has compiled and published annual crime statistics for the state. The publication is one of the products of the Uniform Crime Reporting Program, which entails the submission of data by law enforcement agencies throughout the state. When correlated and analyzed, the statistics constitute a useful body of knowledge that can significantly contribute to management and planning activities at local, state, and federal levels.

Each year, the quality and scope of the Uniform Crime Reporting Program have increased, thanks to the cooperation and dedication of each participating agency. I am confident that the trend will continue.

With appreciation and thanks to all who have contributed to its publication, I present *Crime in Illinois, 1988* to the people of Illinois.

INTRODUCTION

INTRODUCTION

THE ILLINOIS UNIFORM CRIME REPORTING PROGRAM

The Illinois Uniform Crime Reporting (I-UCR) Program was developed in 1971 and implemented on January 1, 1972. The I-UCR Program has evolved into a system intended to meet the needs of all reporting agencies. It is an incident-based reporting system designed to accomplish the following major goals:

- To provide needed administrative statistics for law enforcement agencies.
- To provide the legislature with information necessary to formulate effective laws which address the crime problem.
- To provide Illinois citizens with the most complete information on the nature and extent of crime.
- To include comprehensive data for researchers and planners.
- To adhere to the national program's standards.

Reporting crime statistics is mandated by chapter 38, paragraph 206-8 of the *Illinois Revised Statutes:*

> *206-8. Crime Statistics.8. The Department (of State Police) shall be a central repository and custodian of crime statistics for the State and it shall have all power incident thereto to carry out the purposes of this Act, including the power to demand and receive cooperation in the submission of crime statistics from all units of government.*

Reporting agencies receive monthly and quarterly summaries of the reported criminal activity within their jurisdictions upon request. All offenses known to law enforcement agencies are reported monthly to the Crime Studies Section of the Bureau of Identification. Participating jurisdictions include villages, municipalities, counties, colleges, universities, park districts, railroads, and hospitals throughout Illinois. Agencies may also submit service code and local ordinance data in order to provide law enforcement administrators with information for use in planning and research, determining and utilizing manpower, budgeting, and developing and evaluating crime prevention programs.

In 1988, there were 1,002 law enforcement agencies in Illinois, 744 of which reported crime statistics directly to the Bureau of Identification. The remaining agencies reported their crime statistics through an intermediary agency (sheriff's office, police department, etc.). Agencies submit their data through the use of paper forms, computer printouts, magnetic tape, floppy disk, or via remote on-line terminals.

CONSIDERATIONS FOR INTERPRETATION

When comparing the crime statistics of one agency with another, many factors should be taken into consideration before conclusions are made. Some of the conditions affecting the type and volume of crime are:

- Population density and degree of urbanization with size of locality and its surrounding area.
- Variations in composition of the population, particularly youth concentration.
- Stability of population with respect to residents' mobility, commuting patterns, and transient factors.
- Modes of transportation and highway system.
- Economic conditions, including median income, destitution, and job availability.
- Cultural conditions, such as educational, recreational, and religious characteristics.
- Family conditions with respect to divorce and family cohesiveness.
- Climate.
- Effective strength of law enforcement agencies.
- Administrative and investigative emphases of law enforcement.
- Policies of other components of the criminal justice system (i.e., prosecutorial, judicial, correctional, and probational).
- Attitudes of citizenry toward crime.
- Crime reporting practices of citizenry.[1]

THE CRIME INDEX

The Crime Index is the total number of index offenses occurring within a given jurisdiction during a specified period of time. It is used to indicate the amount and extent of serious crimes as defined by the International Association of Chiefs of Police Committee on Uniform Crime Reports. The Crime Index consists of violent crimes — murder and voluntary manslaughter; forcible rape; robbery; and aggravated assault, aggravated battery, and attempted murder, and of property crimes — burglary, theft, motor vehicle theft, and arson.

The index crimes used by the I-UCR Program translate into the national program's eight Crime Index offenses as:

Violent Crimes

Murder and voluntary manslaughter — The willful killing of a person or the death of a person caused by gross negligence of an individual other than the victim.

Forcible rape — The carnal knowledge of a female, forcibly and against her will; includes attempted rape. Illinois reports criminal sexual assault offenses rather than rape offenses under this category.

Robbery — The taking or attempting to take anything of value from the care, custody, or control of a person or persons by force or threat of force or violence; includes attempted robbery.

Aggravated assault — The intentional causing of serious bodily harm or the intentional attempt or threat of serious bodily injury or death; includes aggravated battery and attempted murder.

Property Crimes

Burglary — The unlawful entry of a structure to commit a felony or theft; includes attempted burglary.

Theft — The unlawful taking or stealing of property or articles without the use of force, violence, or fraud; includes burglary from motor vehicle and attempts.

Motor vehicle theft — The unlawful taking or stealing of a motor vehicle; includes attempted motor vehicle theft.

Arson — The willful or malicious burning or attempts to burn, with or without intent to defraud, a dwelling house, public building or any building, motor vehicle, aircraft, or personal property of another.

THE CRIME RATE

The crime rate indicates the volume of crime occurring within a given population. It is defined as the total number of index crimes per 100,000 inhabitants and is calculated as follows:

$$\frac{\text{Crime Index} \times 100{,}000}{\text{jurisdictional population}} = \text{crime rate}$$

The jurisdictional population can be that of a city, town, village, state, or nation.

All totals shown for each category of offense and arrest information reflect data reported by sheriffs' offices, police departments, colleges, universities, and the Secretary of State's Office on offenses that occurred between January 1, 1988, and December 31, 1988. Because of agency adjustments and late submissions, 1987 figures reflected in this publication are not comparable with those figures published in *Crime in Illinois 1987*.

MURDER AND VOLUNTARY MANSLAUGHTER

The index offenses of murder and voluntary manslaughter are merged in accordance with the national program definition and are based solely on police investigation.

Effective July 1, 1987, the provisions of these statutes were amended and included in the offenses of first degree murder (*Illinois Revised Statutes*, chapter 38, paragraph 9-1) and second degree murder (*Illinois Revised Statutes*, chapter 38, paragraph 9-2) respectively. Since the changes took effect during the reporting year, the I-UCR offense code change was not implemented until January 1, 1988. However, the new classifications are shown in various reports due to data processing requirements.

Murder

38 § 9-1.

(a) A person who kills an individual without lawful justification commits murder if, in performing the acts which cause the death:

(1) He either intends to kill or do great bodily harm to that individual or another, or knows that such acts will cause death to that individual or another; or

(2) He knows that such acts create a strong probability of death or great bodily harm to that individual or another; or

(3) He is attempting or committing a forcible felony other than voluntary manslaughter.

Voluntary manslaughter

38 § 9-2.

(a) A person who kills an individual without lawful justification commits voluntary manslaughter if at the time of the killing he is acting under a sudden and intense passion resulting from serious provocation by:

(1) The individual killed; or

(2) Another whom the offender endeavors to kill, but he negligently or accidentally causes the death of the individual killed.

Serious provocation is conduct sufficient to excite an intense passion in a reasonable person.

(b) A person who intentionally or knowingly kills an individual commits voluntary manslaughter if at the time of the killing he believes the circumstances to be such that, if they existed, would justify or exonerate the killing under the principles stated in chapter 38, Article 7, Illinois Revised Statutes, but his belief is unreasonable.

First degree murder *(Effective July 1, 1987)*

38 § 9-1.

(a) A person who kills an individual without lawful justification commits first degree murder if, in performing the acts which cause the death:

(1) He either intends to kill or do great bodily harm to that individual or another, or knows that such acts will cause death to that individual or another; or

(2) He knows that such acts create a strong probability of death or great bodily harm to that individual or another; or

(3) He is attempting or committing a forcible felony other than second degree murder.

Second degree murder *(Effective July 1, 1987)*

38 § 9-2.

(a) A person commits the offense of second degree murder when he commits the offense of first degree murder as defined in paragraphs (1) or (2) of subsection (a) of Section 9-1 of this Code and either of the following mitigating factors are present:

(1) At the time of the killing he is acting under a sudden and intense passion resulting from serious provocation by the individual killed or another whom the offender endeavors to kill, but he negligently or accidentally causes the death of the individual killed; or

(2) At the time of the killing he believes the circumstances to be such that, if they existed, would justify or exonerate the killing under the principles stated in Article 7 of this Code, but his belief is unreasonable.

(b) Serious provocation is conduct sufficient to excite an intense passion in a reasonable person.

ADULT AND JUVENILE ARREST DATA

ADULT AND JUVENILE ARREST DATA

The Adult and Juvenile Arrest Trend report is produced annually upon request for each reporting agency and summarized on the state level. Index crime arrest information are developed from this summary.

The **Adult and Juvenile Arrest Trend** report includes:

Total Adults Arrested — compiled from police dispositions of Arrested and Held for Prosecution (including Released on Bond); Summoned, Cited, or Notified; Released Without Charge; and Referred to Other Agency.

Total Juveniles Arrested — compiled from police dispositions of Handled within Department and Released; Summoned, Cited, or Notified; Referred to Welfare Agency; Referred to Juvenile Court; Referred to Criminal or Adult Court; and Referred to Other Agency.

Total Adult and Juvenile Arrests.

Adult and juvenile arrest totals for 1988 should be considered with caution when compared to 1987 figures. In 1988, Chicago Police Department (CPD) began reporting arrests for aggravated assault as index offense arrests. The statewide increase in arrest totals for this offense is chiefly the result of this CPD reporting change.

For further information, contact the Chicago Police Department's Research and Development Division at (312) 744-6203.

SECTION IV

CRIME INDEX/CRIME RATE DATA

CRIME INDEX/CRIME RATE DATA

Caution should be exercised when reviewing and using these data. The many social factors related to crime and a community's residential population — used to calculate the crime rate — must be considered when making statistical comparisons. A community may have a small residential population but a large moving population because of a substantial number of manufacturers, motels, etc., within its jurisdiction. The large moving population attracts criminal behavior that occurs within the small jurisdiction and must be reported by the law enforcement agency. The crime rate calculation does not compensate for a moving population. The statistics can make it appear that crimes are committed by community residents when this is not necessarily true.

The Crime Index/Crime Rate Comparison Report is in alphabetical order by county. To determine in which county a particular agency may be located, refer to the Law Enforcement Employees Report in Section VI.

BUREAU OF THE CENSUS

METROPOLITAN STATISTICAL AREAS

A Metropolitan Statistical Area (MSA) includes a city of more than 50,000 and the county in which the city is located, plus other cities which exhibit strong ties with the city. The county sheriff's office is also included for crime reporting purposes.* Two of the MSAs overlap with Iowa and Missouri. Areas outside of Illinois that are included in an MSA are not represented in the statistics presented here. In some cases, the percentages may not equal 100 due to rounding.

MSA Summary

The estimated population of core cities and suburban areas — the two regions that comprise the MSAs — accounts for 81.0 percent of the state population. The total MSA index crimes account for 91.8 percent of the Illinois Crime Index.

MSA Core Summary

A core city is within an MSA and has a population of 50,000 or more inhabitants. The "twin central cities" of certain MSAs have combined populations of 50,000 or more inhabitants and are considered together as a core city.*

The inhabitants of core cities represent 40.6 percent of the state's population and 50.1 percent of the MSAs' population. Core cities account for 63.0 percent of the Illinois index crimes and 68.6 percent of the total MSA index crimes.

MSA Suburban Summary

A suburban area consists of cities and towns with 50,000 or less population, including the counties which are within the MSA. The county sheriff's office is included in the suburban area.*

Suburban areas lie outside core cities and are bounded by the MSA lines. The inhabitants of suburban areas represent 40.4 percent of the state's population and 49.9 percent of the MSAs' population. Suburban areas account for 28.8 percent of the Illinois index crimes and 31.4 percent of the total MSA index crimes.

Rural Area Summary

A rural area is the unincorporated portion of a county outside the MSAs. For I-UCR purposes, rural areas are composed of the sheriff's jurisdiction outside of the MSAs.*

The inhabitants of the rural areas represent 9.5 percent of the state's population. Rural areas account for 2.1 percent of the Illinois index crimes.

The Special Agent was fatally wounded during a staged motorist assist incident which was conducted as part of an investigation by Illinois State Police for a solicitation to commit murder offense. The armed offender was fatally wounded by other officers who were assisting with staging the motorist assist incident.

April

Lockport Police Department — On April 1, 1988, at approximately 10:45 p.m., an officer sustained injuries, which were later fatal, from a motor vehicle accident occurring on Highway 171 near Ludwig School. The officer was responding to a call pertaining to a man with a gun while in a marked vehicle. The occupants of the other vehicle were injured and taken to the hospital.

May

Later, while the officer was returning to his home, the officer was ambushed and assaulted by five offenders. The extensive injuries proved fatal.

September

Chicago Police Department — On September 22, 1988, a 40-year-old female officer with 12 years of experience with the department was fatally wounded after confronting an armed offender at the Moses Montefiore School, 1300 South Ashland. LAW ENFORCEMENT EMPLOYMENT INFORMATION

The employment rate for law enforcement personnel is calculated as follows:

$$\frac{\text{number of employees} \times 1{,}000}{\text{jurisdictional population}} = \text{employment rate}$$

Example:

A department with 60 employees in a population of 51,000 has an employment rate of 1.2 per 1,000 inhabitants.

$$\frac{60 \times 1{,}000}{51{,}000} = 1.2 \text{ per } 1{,}000 \text{ inhabitants}$$

Law enforcement employment rates should not be correlated with index crimes; non-index offenses and the many services performed by the typical law enforcement officer amount to over 80 percent of the officer's workload, the details of which usually remain unpublished. Each community should consider all the factors related to the causes of crime and determine the role of the law enforcement department relative to crime and to required services.

The 25,270 part- and full-time sworn officers in 1988 account for 84.2 percent of the police department work force. The 1988 employment rate for sworn employees of police departments is 2.7 per 1,000 inhabitants. The 4,732 civilian employees comprise 15.8 percent of the police department work force, with an employment rate of .5 per 1,000 inhabitants.

The 3,514 part- and full-time sworn officers in 1988 account for 73 percent of the sheriffs' offices work force. The 1988 employment rate for sworn employees of sheriffs' office is 1.7 per 1,000 inhabitants. The 1,299 civilian employees comprise 27 percent of the sheriffs' offices work force, with an employment rate of .6 per 1,000 inhabitants.
